rob@schacherauction.com • www.schacherauction.com

Dear Friends and Cattle Producers,

Welcome to Texas for the Sixth Annual Texas Wagyu Association production sale. I am very proud to represent this outstanding offering of cattle from this very progressive group of breeders. Many of the consignors in this year's sale have had cattle in this sale since the beginning in 2010, and we have grown the sale stronger in quality every year.

I would like to congratulate all of you in the cattle business today. We have all endured many challenges and challenging years, but we are now taking advantage of a profitable market not realized in decades. The future of the livestock industry projects to be solid for several years to come. Many drought stricken areas are recovering and looking to rebuild their inventories with top notch cattle that will be accepted favorably by the consumer. The Wagyu Breed provides a unique opportunity to fulfill these demands by producing a healthy source of protein with an unparalleled flavor experience. It is no surprise that the Wagyu breed is one of the fastest growing breeds of cattle in the United States,

I am confident that as you study this catalog you will find that we are offering cattle that will fit almost any program. The quality runs very high in both pedigree and phenotype. There are many opportunities here to expand your herd, or if you are new to the livestock industry, we have many matron cows to build a herd around.

Be sure to join us on Friday for an informative and fun day featuring Wagyu Beef. If you have any questions about the cattle, or if we can help you with anything, please do not hesitate to contact myself or any of the consignors listed in this catalog.

Sincerely,

Robert Schacher
Robert Schacher

**The Texas Wagyu Association is proud to host speakers at the
Texas Wagyu Association General Meeting Friday, April 10, following a Wagyu Burger Lunch
Sponsored by Kuempel Wagyu and Yamamoto Ranch at 12:00 NOON. Meeting at 1:00 PM.**
Presentation on Live Animal Evaluation and Records.

**Please join us for our Friday Night Social from 5:00 PM - 7:00 PM
Sponsored by Rosewood Texas.**
Fun auction will occur just before the social.

Tenroc Ranch is located at 5471 Thomas Arnold Road, Salado, Texas.

From the North: (Dallas-Fort Worth) take exit 284 off of I-35 and go south on service road to Thomas Arnold Road, go two mile West on Thomas Arnold Rd to Tenroc Ranch on your left.

From the South: (Austin) take exit 283 off of I-35 and go to the service road on the West side of the interstate. Take the service road north to Thomas Arnold Road and go west two miles to Tenroc Ranch on your left.

ANNOUNCEMENTS:

All announcements from the auction block will take precedence over any printed material

LIABILITY:

All persons attending the sale and related functions do so at their own risk, legal or otherwise, for their safety or the behavior of the animals. The owners and hosts assume no liability for loss or damages however so caused.

TERMS:

The terms of the sale are cash unless arrangements are made prior to the sale. Satisfactory settlement must be made with the clerk of the sale immediately after the close of the sale. Only when the above conditions are met will the buyer be able to load cattle. In no case will animals be released unless settlement is made with the clerk of the sale.

ERRORS:

The material in this catalog has been carefully edited. If errors or omissions are discovered, they will be announced. Such announcements take precedence over the printed matter in this catalog. Neither the editors of the catalog, the Texas Wagyu Association, the sale management, nor the consignors can assume any responsibility for errors or omissions in the catalog.

RESPONSIBILITY:

The consignor will represent and be responsible for his animals. In no case, however, will the consignor be responsible for any damages beyond the selling price of the animals. The Texas Wagyu Association and the sale manager assumes no responsibility, no warranties and no guarantees on the cattle presented in this sale. All transactions are between the buyer and seller.

B3FU, CHSFU, CL16FU, F11FU

Lots 15 and 16 are two full sisters sired by Red Galaxy the fine son of Kalanga Red Star and full brother to VBV ROA AKABASHI who sold at the 2012 TWA Sale for \$44,000! If you have not seen this fantastic bull, here is a video of him: http://www.semenzorillos.com/lopenday/index.php?option=com_content&view=article&id=689&Itemid=852 or go to Semenzorillos.com website click on "Otras Razas", click "Akaushi Wagyu" then click "VBV ROA RED GALAXY". It is very impressive! I bought his semen from Sexing Technologies; they were about out of straws the last time I called. Now that he is in Columbia it may be more difficult to obtain this quality bull's genetics. Their black dam is a daughter of Itoshigefuji TF147 the largest foundation bull at 2640 lbs. David Blackmore in Australia is especially fond of TF 147's daughters for their ability to raise a calf on grass. The dam is very wide and I estimate her weight at 1200 lbs. I like the way she has grown compared to the mostly Tajima lines I have had. I like T-bone steaks and if an animal goes over 30 months the government forces the butcher to discard the spine, so no T-bones. At least that is what the butchers in our area do. With these heifers you may get carcasses that can grow much more quickly for market, especially using a good growth sire. These wonderful heifers will be a great outcross to any fullblood operation especially if you want size, growth, and milk. Their Wagyu lines are: Akaushi 50, Tajima 17, Kedaka 2.5, Tottori 1, Itozakura 18.5, Shimane 3.5, and Okayama 7.5. Odds of a red calf being born if bred to Akaushi line is 50. Both heifers are free of recessives by parentage and both have scored a wonderful AA on the SCD to have the better fat. All the progeny of these heifers will have at least one A marker of the good fat for tasty, buttery Oleic acid fat. 3. Their Wagyu lines are: Akaushi 50%, Tajima 17%, Kedaka 2.5%, Tottori 1%, Itozakura 18.5%, Shimane 3.5%, and Okayama 7.5%. Odds of a red calf being born if bred to Akaushi line is 50%. Lots 15 and 16 sell open.

B3FU, CHSFU, CL16FU, F11FU

Offering two lots of four embryos each. The sire is a grandson of TWA Kajikari whose semen was unable to be exported from Australia. Darley Stud had this to say of TWA Kajikari: "When it comes to the siring ability of TWA Kajikari (IMP USA), his progeny have shown that they are worth their weight in gold. On researching Hikari (IMP IAP) sons at stud in Australia, it became clear that TWA Kajikari (IMP USA) delivered outstanding EBV's in his progeny with the biggest advantage being that the EBV birth weight of his progeny is half that of the other stud sires sired by Hikari (IMP IAP). This makes TWA Kajikari (IMP USA) one of the most important sires within the Akaushi breed." A001 is a nice thick bull who scored VA on the SCD test and his video is on Youtube here: <https://www.youtube.com/watch?v=1ZrX-s134lw> or you can do a Google search with the keywords: A001 youtube Dana. The dam is a recessive free daughter of Itoshigefuji TF 147 and scores AA on the SCD test. The embryos are stored at Genex in Strafford, MO and buyer is responsible for delivery.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy your livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's newest way to buy livestock! Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. The sale will be broadcast live on the internet at www.superiorclicktobid.com – just go to the home page and select the auction. Remember, you can call in to bid over the phone when watching on the internet if you have registered for that service, but you must be a member of www.superiorclicktobid.com to "click-to-bid" and bid online. Your computer must have Flash Media Player installed to view the auction.

Bidders who are successful in making purchases will be contacted by Superior Productions after the sale to settle payment and discover your shipping plans.

THE STEAKS ARE HIGH *donors*

Over the last four years, Clear Creek Cattle and Zen 10 Cattle Co. have purchased a number of cattle from The Texas Steaks Are High Sale. Always leaving pleased and satisfied with their buys. This year we come to the sale in Salado offering eight Full Blood, Genetic Defect free by test cows of quality bloodlines. We acquired these animals in New York from the Empire State Farm's dispersal to augment our flush program. They were shipped directly to our USDA approved collection facility in Ocala, Florida and as soon as possible we began flushing them. We have frozen over 240 embryos from these matrons and that's not counting our transfers or the calves they have raised. This has been a rather prolific group of cows that we are bringing to this year's Texas sale. Since we have just finished flushing these cows we have not had the time to breed them therefore, we are offering three straws of semen for each cow that we are selling with the buyers choice from BAR R SABURO 53Y or BAR R NAKAGISHIRO 56T.

This young cow again blends CHR MS ITOZURU DOU 364, who's dam is one of the great CF500 daughters, she by ITOSHIGENAMI. On her dams side we have MICHIFUKU crossed on an own daughter of the high marbling bull, JVP FUKUSURU 068 thus giving a pedigree high in marbling ability. Which makes her an easy cow to to cross on bulls that offer size and growth as her pedigree has an abundance of marbling.

As "KOBE" was in our most recent flush program we are offering her purchaser their choice of three straws of semen from either the bull BAR R SABURO 53Y or BAR R NAKAGISHIRO 56T.

B3F, CHSF, CL16F, F11F

New carcass data along with an exceptional pedigree place BAR R SANJIROU 4P as the number three marbling bull in the interim 2009 Wagyu Sire Summary, ahead of his own famous sire SANJIROU. 4P's great grandsire, MICHIFUKU, is considered by many to be the best over all carcass bull in the US herd base. Then add her dam, from the genetics of the famed Blue Rock ranch. A daughter of YASUFUKU JR, a bull known for his marbling and his ability to pass that trait on. This exceptionally well bred cow should be an asset to any ones breeding program. As with all these females we are offering, she too has just finished a flush and has not had time to be bred. Therefore, we are offering her new owner a choice of three straws of semen from either BAR R SABURO 53Y or BAR R NAKAGISHIRO 56T so they can either continue to flush her or simply breed her.

A daughter BR ITOMICHI 0602, arguably one of the best if not the best sons of ITO-MICHI 1/2. BR ITOMICHI 0602 has been used to enhance phenotype and increase size along with growth while maintaining a superior marbling level. Her dam is by MICHIFUKU, thought by many to be the best carcass bull to ever leave Japan. Her second dam hails from the famed Crescent Harbor genetics being by TAKAZAKURA, another size producer, with her dam being the great cow JVP YURIKO sired by the excellent producer KIKUYASU 400. ESF ITOMICHI was purchased for our flush program and has been a successful producer for us. Remember she is being sold with three straws of semen, so her new owner can keep her in a flush program or simply breed her. The new owner may choose from either of our Bulls, BAR R NAKAGISHIRO 56T or BAR R SABURO 53Y.

 Offering a flush on Sanshiga FB12283. She is our largest cow we have in our program and our highest producer. She weighed 1430 pounds by scale in January 2015 at 4 years old which is an astounding size for a high Tajima, she has a very large frame and stands as tall as any Kedaka line we've got in our pasture. She has flushed us 39 fertilized embryos in one flush with 30 being grade 1, she has over 30 live calves on the ground. She has every significant sire in her pedigree, Shigeshigetani, Sanjirou, Haruki 2, Michifuku and Fukutsuru 068. She has Suzutani, the most influential cow to leave Japan, on both sides of her pedigree. Sanshiga carries double copies of the Alanine gene "AA" which is responsible for healthier, softer and more flavorful fats. What you are bidding on is one flush to the Sire of your choice, buyer provides the semen which will be sent to Trans Ova in Missouri, buyer pays all fees associated with the flush and board of the donor for 30 days. Buyer is guaranteed minimum 10 freezable embryos. If 10 embryos are not produced RCC will flush Sanshiga at our expense, excluding semen, until the buyer has 10 freezable embryos. If the first flush produces more than 10 embryos the buyer will get all embryos produced in that flush. Free of all genetic disorders.

Offering an outstanding bull from very rare Australian genetics. A002 is a recessive free son of Red Emperor and grandson of the fabulous TWA Kajikari. TWA Kajikari's semen could never be exported from Australia so his genetics are very rare. In fact, in the AWA herdbook there are only 4 grandsons of his in the United States and only 2 sired by Red Emperor. Darley Stud in Australia says of TWA Kajikari: "When it comes to the siring ability of TWA Kajikari (IMP USA), his progeny have shown that they are worth their weight in gold. On researching Hikari (IMP JAP) sons at stud in Australia, it became clear that TWA Kajikari (IMP USA) delivered outstanding EBV's in his progeny with the biggest advantage being that the EBV birth weight of his progeny is half that of the other stud sires sired by Hikari (IMP

JAP). This makes TWA Kajikari (IMP USA) one of the most important sires within the Akaushi breed." A002 also has Big AI on the maternal and paternal side as well as Hikari on the dam side. His maternal grandmother is Kalanga Almiko V2277; Darley Stud makes a remarkable statement about her: "When mated with the best Akaushi female in the country, Kalanga Almiko V2277 (IMP USA) and TWA Kajikari (IMP USA) result in progeny that produce EBV's equal and better than their dam. This is a true indication that TWA Kajikari (IMP USA) is producing high quality progeny from a low birth weight point of view. " A002 would vastly improve the gene pool of American, Canadian, Brazilian or Costa Rican Akaushi lines of Wagyu. A Youtube video of A002, from last September when he was 18 months old, is here: <https://www.youtube.com/watch?v=iOqfW30pllw> or you can do a Google search of "Best of A002 youtube" and that would get you to the video.

This powerful Red/Black bull who was recently named the Reserve Grand Champion Fullblood Black Bull at the Houston Stock Show and Rodeo. He is sired by Red Emperor and exhibits the size, weighing #1300 at 18 months, and the muscling you would expect. His dam is a TF 148 daughter that is free of all genetic defects adding more value as the Itoshigenami cattle are some of the best the breed has to offer when it comes to overall performance including muscle and marbling. He had an excellent breeding soundness exam with a large scrotal circumference and outstanding motility.

B3F, CHSF, CL16F, F11F

This bull is a powerful mating that finds the sweet spot. Balancing growth, marbling, and milking ability. The sire is HB Red Emperor and his grand sires were ranked #1 and #3 in the Japanese Red Wagyu Registry with high marbling carcasses. Breed plan EBV's list him in the top 1% for scrotal size, 5 % for milk and 15% 600 day weight.

The dam of this bull is a daughter of Takeda Farms Itomichi 1/2. He is known for growth rate with an increased mature size and excellent marbling. He also produces calves with top milk production (in the top 1% for bred plans milk EPV.) He has tested free of all five recessive disorders and is a great young bull with a terrific pedigree.

This bull is an outstanding composite of some of the industry's leading foundation sires. The sire is the son of the popular Haruki 2 and the grandson of the famous sire Monjiro. This line is known for a balanced pedigree with great marbling and equally phenomenal growth. Monjiro was auctioned in Japan for \$160,000 and has produced some excellent breeding stock. The dam of this bull is a daughter of Tekeda Farms Itomichi 1/2. He is known for producing calves with a great growth rate and an increased mature size without sacrificing on marbling. He also produces calves with excellent mothering abilities and milk production (in the top 1% for breed plan milk EBV). He tested free from all five recessive disorders and will make a great herd bull.

BAR R NAKAGISHIRO 56T • SIRE OF LOT 62 FLUSH BROTHERS.

BAR R NAKAGISHIRO 56T	WORLD K'S NAKAGISHI 5 ITOSHIGEFUJI	
SCC MS ITOMICHTAYASU	MCC MS MICHIFUKU 717F	

Offering a chance to own a Fullblood bull out of the very rare World K's Nakagishi 5 genetics. Nakagishi 5 was in World K's last importation and she has only 4 recorded offspring. The sire, Nakagishiro 56T, is the only bull from this cow. Jerry Reeves stated that he believed 56T to be his best looking bull! Of 56T's 2013 bull calves Jerry offered half interest in a choice of 9 fullblood or 4 pureblood at the Denver 2015 sale. The result was that a half interest of a Nakagishiro son sold for \$9000!! So logically these calves that are selling here with full interest must be worth at least \$18,000 each. However, the difference is in the dam and the age of

the bulls. The dam of these bulls is sired by Itoshigefuji, the largest black foundation bull at 2640 lbs. So here is an opportunity to obtain the rare genetics of Nakagishi 5 with a fantastic dam with some good size, growth and milk from the Itoshigefuji genetics. One last important item is all bulls have been tested for SCD and all four bulls scored the best AA markers for the good fat. Every single one of their progeny will have at least one A marker and will have the good buttery Oleic acid fat. Any of these bulls would be ideal for both fullblood operation or a commercial operation. You will get choice of CLV Nakagito B06, B07, B08, or B09. Their registration numbers are FB18353, 54, 55, and 56. The calves are located in Ava, MO and will be available through May 2015 to pick up.

JR-Hiroto is an exceptional full blood red bull sired by a top Australian bull Seisakushu (bred by the famous Symo Cattle Company) Hiroto traces back two times to the Dam, Akiko, whos sire is Namimaru. Also in this powerful lineup is Tamamaru. This makes JR Hiroto an outcross to most Red Wagyu around the world. He is the largest and fastest growing in his contemporary group. AA Marker for SCD Fat - 5 for Tenderness. Free of all genetic disorders by pedigree.

A very attractive young sire from Australia. A natural calf, grandson of the highly successful Tamamaru and out of a long and productive Big AI daughter with a very good milk figure of +5 on Breedplan and very high growth. . Tambo has been raised entirely on grass and was used in natural service as a yearling. His 2 y.o. weight 1500 lbs, height 58", testicles 37 cm and EMA 97 sq.cm. Use Tambo to add weight – length and height, milk and structural correctness to your breeding herd.

Yamamoto Genetics

Yamamoto Genetics has been in the Wagyu business since 1988. We started with Shogo Takada Genetics and are striving to have a herd free of genetic disorders. The genetics we have are some of the best in the United States.

We offer semen sale on TF-36 Itomichi 1/2, TF-37 Kikuhana and TF-39 Kinto, all of which are free of genetic defects. We have semen on nine other AI sires and numerous embryos for sale also.

We are making strides to help you improve your herd. Contact us today for more information.
